

Hemant Satwal

PROFILE

I'm a passionate software developer with expertise in building modern, scalable web applications. With a strong foundation in both frontend and backend technologies, I focus on crafting intuitive, high-performance solutions that address real-world challenges.

WORK EXPERIENCE

2025 - 2025

SDE Intern

Bluestock Fintech

As an SDE Intern focused on building tools for their investment platform. My main project involved developing a web application that helped users analyze IPO data and company financials.

2021 - 2023

Junior Associate Technology LI

Publicis Sapient

Worked in a highly structured Agile environment, participating in daily stand-ups, sprint planning, and retrospectives. Worked on core technologies (Node.js, React) to build scalable, high-performance applications.

2019 - 2019

Data Annotation Intern

PixellIQ

Worked with specialized annotation tools (like CVAT, LabelImg) to identify and tag objects within images and videos. Worked closely with Machine Learning Engineers to refine labeling protocols based on model performance results.

EDUCATION

• Christ University

*Master of Technology
Data Science and Engineering*
2024 - 2026

• Babu Banarsi Das Northern Indian Institute of Technology

*Bachelor of Technology
Computer Science and Engineering*
2017 - 2021

SKILLS

- Web Development: React.js, Node.js, Front-end & Back-end Architecture
- Databases & Tools: MySQL, Git, GitHub, Jira
- AI & Data: AI/ML, Data Annotation (CVAT, LabelImg)
- Methodology: Agile Software Development Lifecycle (SDLC), Sprint Planning
- Specialized: API Design & Integration

AWARDS

Feb 2025 | Google

**Google Advanced Data Analytics
Professional Certificate**

Feb 2025 | Meta

**Meta Data Analyst Professional
Certificate**

PROJECTS

Customer Sentiment Analysis for E-Commerce

- Built multiclass sentiment classification models using ML and deep learning on Amazon reviews.
- Achieved 86.69 percent accuracy using Logistic Regression; evaluated BiLSTM and BERT-based models in PyTorch.
- Used TF-IDF, GloVe, and hybrid BERT-BiLSTM-Attention architectures for feature extraction and performance improvement.

E-commerce website (freelance)

- Built a fully responsive e-commerce website for a client using Next.js, TypeScript, and shadcn/ui.
- Implemented local asset management for product images instead of API-based fetching.
- Enhanced SEO and page performance using Next.js server-side rendering (SSR).

Personal portfolio website

- Built a fully responsive and modern personal portfolio website
- Deployed and made better versions of it from time to time.
- Hosted on real domain and deployed on vercel.
